2014 INNOVATIONS, VOLUNTEER AND CORPORATE SUPPORT OF PARKS & RECREATION

City of Englewood

Department of Parks and Recreation

The Department of Parks and Recreation actively solicits volunteer and business involvement in all facility and program areas. This has resulted in significant cost savings to the Department and has enhanced program growth and quality and has established a strong partnership among the public sector, the private sector and citizens.

Over **578 volunteers** worked in many different positions during 2014. The Department received grants from Arapahoe County Open Space and Scientific and Cultural Facilities District (SCFD). Many sponsorships and donations were also received as program support.

Total value and cost savings to the Department and City during the past year is \$734,805.

The estimated dollar value of volunteer time is \$22.55 per hour for 2013 (unless otherwise specified). Dollar value is determined by the Independent Sector, a coalition of charities, foundations, corporations, and individuals that publishes research important to the nonprofit sector. It reports annual statistics on the estimated dollar value of volunteer time, including historical values back to 1980 and values for each state. The state of Colorado's estimated dollar value of volunteer time is \$25.10, throughout this document the national dollar value is used.
