Chart 1: Commodity prices become increasingly volatile

Source: Bloomberg, March 31, 2022

Chart 2: Short-end Treasury yields rise as the Fed becomes more hawkish

Source: Bloomberg, March 31, 2022

## Economic Indicators and Monetary Policy

The Federal Reserve (Fed) kicked-off its rate hiking cycle, with its first rate rise since 2018. The Fed’s quarterly “dot plot” was increasingly hawkish for the third straight meeting. The median projection rose to seven rate hikes this year, up from four in December. This implies one 25bp hike at every remaining meeting this year. Seven members were even more hawkish than this, pointing to openness toward 50bp moves.

CPI recorded another multi-decade high, albeit this time in line with expectations at 7.9% year-on-year, while Core CPI was 6.4%. Within the “sticky” categories, Notably, healthcare inflation moderated. In the shelter categories, owners’ equivalent rent maintained its recent pace at 0.4%, while rents accelerated to 0.6%.

Employment growth continued its strong run, with nonfarm jobs up 678,000, well above consensus estimates for ~500,000. The unemployment rate fell to 3.8% from 4%, further than expected even as the participation rate ticked up to 62.3%, a new cycle high. Average hourly earnings, the most anticipated element of the employment report, underwhelmed however, by remaining unchanged. However, idiosyncratic issues likely played a part following disruptions relating to the Omicron Covid-19 variant.

The war in Ukraine continued with Russia failing to take control of Kyiv and toward the end of the month, appearing to concentrate on Ukraine’s Eastern regions. Tentative peace talks began by the end of the month, albeit terms of an agreement still far off. The US announced a ban of imports on Russian oil and gas and the release of up to 180m barrels of domestic oil reserves over six months. This is the largest release since the reserve was created in 1974. Commodity prices continued to be volatile, particularly oil, gas, wheat and other agricultural commodities (Chart 1).

## Interest Rate Summary

Yields rose materially across the curve, particularly the short end (Chart 2). At the end of March, the 3-month US Treasury bill yielded 0.51%, the 6-month US Treasury bill yielded 1.03%, the 2-year US Treasury note yielded 2.34%, the 5-year US Treasury note yielded 2.46% and the 10-year US Treasury note yielded 2.34%.

# ACTIVITY AND PERFORMANCE SUMMARY

# ADDITIONAL INFORMATION

## As of March 31, 2022

Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may partly be due to exchange rate changes) and investors may not get back the amount invested. Transactions in foreign securities may be executed and settled in local markets. Performance comparisons will be affected by changes in interest rates. Investment returns fluctuate due to changes in market conditions. Investment involves risk, including the possible loss of principal. No assurance can be given that the performance objectives of a given strategy will be achieved. The information contained herein is for your reference only and is being provided in response to your specific request and has been obtained from sources believed to be reliable; however, no representation is made regarding its accuracy or completeness. This document must not be used for the purpose of an offer or solicitation in any jurisdiction or in any circumstances in which such offer or solicitation is unlawful or otherwise not permitted. This document should not be duplicated, amended, or forwarded to a third party without consent from Insight. This is a marketing document intended for professional clients only and should not be made available to or relied upon by retail clients.

Investment advisory services in North America are provided through two different SEC-registered investment advisers using the brand Insight Investment: Insight North America LLC (INA) and Insight Investment International Limited (IIL). The North American investment advisers are associated with a broader group of global investment managers that also (individually and collectively) use the corporate brand Insight Investment and may be referred to as Insight, Insight Group or Insight Investment.

INA is an investment adviser registered with the Securities and Exchange Commission (SEC), under the Investment Advisers Act of 1940, as amended. Registration with the SEC does not imply a certain level of skill or training. You may request, without charge, additional information about Insight. Moreover, specific information relating to Insights strategies, including investment advisory fees, may be obtained from INA's Form ADV Part 2A, which is available without charge upon request.

Where indicated, performance numbers used in the analysis are gross returns. The performance reflects the reinvestment of all dividends and income. INA charges management fees on all portfolios managed and these fees will reduce the returns on the portfolios. For example, assume that \$30 million is invested in an account with INA, and this account achieves a 5.0% annual return compounded monthly, gross of fees, for a period of five years. At the end of five years that account would have grown to \$38,500,760 before the deduction of management fees. Assuming management fees of 0.25% per year are deducted monthly from the account, the value at the end of the five year period would be \$38,022,447. Actual fees for new accounts are dependent on size and subject to negotiation. INA's investment advisory fees are discussed in Part 2A of its Form ADV.

Unless otherwise stated, the source of information is Insight. Any forecasts or opinions are Insight's own at the date of this document (or as otherwise specified) and may change. Material in this publication is for general information only and is not advice, investment advice, or the recommendation of any purchase or sale of any security. Insight makes no implied or expressed recommendations concerning the manner in which an account should or would be handled, as appropriate investment strategies depend upon specific investment guidelines and objectives and should not be construed to be an assurance that any particular security in a strategy will remain in any fund, account, or strategy, or that a previously held security will not be repurchased. It should not be assumed that any of the security transactions or holdings referenced herein have been or will prove to be profitable or that future investment decisions will be profitable or will equal or exceed the past investment performance of the securities listed.

Please compare the information provided in this statement to the information provided in the statement received from your Custodian.

For trading activity the Clearing broker will be reflected. In certain cases the Clearing broker will differ from the Executing broker.

In calculating ratings distributions and weighted average portfolio quality, Insight assigns U.S Treasury and U.S agency securities a quality rating based on the methodology used within the respective benchmark index. When Moody's, S&P and Fitch rate a security, Bank of America and Merrill Lynch indexes assign a simple weighted average statistic while Barclays indexes assign the median statistic. Insight assigns all other securities the lower of Moody's and S&P ratings.

Information about the indices shown here is provided to allow for comparison of the performance of the strategy to that of certain well-known and widely recognized indices. There is no representation that such index is an appropriate benchmark for such comparison. You cannot invest directly in an index and the indices represented do not take into account trading commissions and/or other brokerage or custodial costs. The volatility of the indices may be materially different from that of the strategy. In addition, the strategy's holdings may differ substantially from the securities that comprise the indices shown.

The ICE BofA 3 Month US T-Bill index is an unmanaged market index of U.S. Treasury securities maturing in 90 days that assumes reinvestment of all income.

The ICE BofA 6 Month US T-Bill index measures the performance of Treasury bills with time to maturity of less than 6 months.

The ICE BofA 1-Year US Treasury Index is a one-security index comprised of the most recently issued 1-year US Treasury note. The index is rebalanced monthly. In order to qualify for inclusion, a 1-year note must be auctioned on or before the third business day before the last business day of the month.

The ICE BofA 3-Year US Treasury Index is a one-security index comprised of the most recently issued 3-year US Treasury note. The index is rebalanced monthly. In order to qualify for inclusion, a 3-year note must be auctioned on or before the third business day before the last business day of the month.

The ICE BofA 5-Year US Treasury Index is a one-security index comprised of the most recently issued 5-year US Treasury note. The index is rebalanced monthly. In order to qualify for inclusion, a 5-year note must be auctioned on or before the third business day before the last business day of the month.

The ICE BofA 1-3 US Year Treasury Index is an unmanaged index that tracks the performance of the direct sovereign debt of the U.S. Government having a maturity of at least one year and less than three years.

The ICE BofA 1-5 US Year Treasury Index is an unmanaged index that tracks the performance of the direct sovereign debt of the U.S. Government having a maturity of at least one year and less than five years.
