Chart 1: CPI shows signs of peaking

Source: Bloomberg, August 31, 2022

Chart 2: Treasury yields rise in response to central bank rhetoric

Source: Bloomberg, August 31, 2022

Economic Indicators and Monetary Policy

Headline CPI fell to 8.5% from the previous month's 40-year record of 9.1% and came in lower than expected. Core CPI was unchanged at 5.9% (Chart 1). Energy CPI retraced, falling -4.6% month-on-month as did other commodity-based sectors, outside of food inflation. However, sticky sectors such as rents, medical services and education continued to be relatively high.

Labor market data was strong again. The US economy added 528,000 jobs in July, more than double the consensus for 250,000. The leisure and hospitality sector was particularly strong with 96,000 new jobs created. The unemployment rate unexpectedly fell to 3.5% from 3.6%, equalling pre-pandemic lows. Wage growth remained unchanged at 5.2%

Federal Reserve (Fed) Chair Powell emphasized the central bank's resolve to bring inflation back down to the 2% target at the annual Jackson Hole Economic Symposium, even at the cost of lower equity prices and slower economic growth. Powell stated, conditions "likely require maintaining a restrictive policy stance for some time." He also reiterated his hawkish message, saying that "the employment costs of bringing down inflation are likely to increase with delay".

On the political front, Congress passed the Inflation Reduction Act (IRA) of 2022, which is expected to narrowly lower the deficit and is focused on provisions for clean energy, health care spending, health care savings and revenue provisions, including a 15% minimum tax for corporations with more than \$1bn in revenue, and a 1% excise tax on stock buybacks.

Elsewhere, the ISM manufacturing composite edged down from 53.0 to 52.8, the lowest since summer 2020. The ISM services index surprisingly rose to 56.7 where a decline was expected.

Interest Rate Summary

Yields generally rose during the month, given the Federal Reserve's rhetoric on persisting with its hiking cycle (Chart 2). At the end of August, the 3-month US Treasury bill yielded 2.95%, the 6-month US Treasury bill yielded 3.36%, the 2-year US Treasury note yielded 3.50%, the 5-year US Treasury note yielded 3.35% and the 10-year US Treasury note yielded 3.20%.

ACTIVITY AND PERFORMANCE SUMMARY

For the period August 1, 2022 - August 31, 2022

<u>Amortized Cost Basis Activity Summary</u>	
Opening balance	84,149,976.56

ADDITIONAL INFORMATION

As of August 31, 2022

Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may partly be due to exchange rate changes) and investors may not get back the amount invested. Transactions in foreign securities may be executed and settled in local markets. Performance comparisons will be affected by changes in interest rates. Investment returns fluctuate due to changes in market conditions. Investment involves risk, including the possible loss of principal. No assurance can be given that the performance objectives of a given strategy will be achieved. The information contained herein is for your reference only and is being provided in response to your specific request and has been obtained from sources believed to be reliable; however, no representation is made regarding its accuracy or completeness. This document must not be used for the purpose of an offer or solicitation in any jurisdiction or in any circumstances in which such offer or solicitation is unlawful or otherwise not permitted. This document should not be duplicated, amended, or forwarded to a third party without consent from Insight. This is a marketing document intended for professional clients only and should not be made available to or relied upon by retail clients.

Investment advisory services in North America are provided through two different SEC-registered investment advisers using the brand Insight Investment: Insight North America LLC (INA) and Insight Investment International Limited (IIL). The North American investment advisers are associated with a broader group of global investment managers that also (individually and collectively) use the corporate brand Insight Investment and may be referred to as Insight, Insight Group or Insight Investment.

INA is an investment adviser registered with the Securities and Exchange Commission (SEC), under the Investment Advisers Act of 1940, as amended. Registration with the SEC does not imply a certain level of skill or training. You may request, without charge, additional information about Insight. Moreover, specific information relating to Insights strategies, including investment advisory fees, may be obtained from INA's Form ADV Part 2A, which is available without charge upon request.

Where indicated, performance numbers used in the analysis are gross returns. The performance reflects the reinvestment of all dividends and income. INA charges management fees on all portfolios managed and these fees will reduce the returns on the portfolios. For example, assume that \$30 million is invested in an account with INA, and this account achieves a 5.0% annual return compounded monthly, gross of fees, for a period of five years. At the end of five years that account would have grown to \$38,500,760 before the deduction of management fees. Assuming management fees of 0.25% per year are deducted monthly from the account, the value at the end of the five year period would be \$38,022,447. Actual fees for new accounts are dependent on size and subject to negotiation. INA's investment advisory fees are discussed in Part 2A of its Form ADV.

Unless otherwise stated, the source of information is Insight. Any forecasts or opinions are Insight's own at the date of this document (or as otherwise specified) and may change. Material in this publication is for general information only and is not advice, investment advice, or the recommendation of any purchase or sale of any security. Insight makes no implied or expressed recommendations concerning the manner in which an account should or would be handled, as appropriate investment strategies depend upon specific investment guidelines and objectives and should not be construed to be an assurance that any particular security in a strategy will remain in any fund, account, or strategy, or that a previously held security will not be repurchased. It should not be assumed that any of the security transactions or holdings referenced herein have been or will prove to be profitable or that future investment decisions will be profitable or will equal or exceed the past investment performance of the securities listed.

Please compare the information provided in this statement to the information provided in the statement received from your Custodian.

For trading activity the Clearing broker will be reflected. In certain cases the Clearing broker will differ from the Executing broker.

In calculating ratings distributions and weighted average portfolio quality, Insight assigns U.S Treasury and U.S agency securities a quality rating based on the methodology used within the respective benchmark index. When Moody's, S&P and Fitch rate a security, Bank of America and Merrill Lynch indexes assign a simple weighted average statistic while Barclays indexes assign the median statistic. Insight assigns all other securities the lower of Moody's and S&P ratings.

Information about the indices shown here is provided to allow for comparison of the performance of the strategy to that of certain well-known and widely recognized indices. There is no representation that such index is an appropriate benchmark for such comparison. You cannot invest directly in an index and the indices represented do not take into account trading commissions and/or other brokerage or custodial costs. The volatility of the indices may be materially different from that of the strategy. In addition, the strategy's holdings may differ substantially from the securities that comprise the indices shown.

The ICE BofA 3 Month US T-Bill index is an unmanaged market index of U.S. Treasury securities maturing in 90 days that assumes reinvestment of all income.

The ICE BofA 6 Month US T-Bill index measures the performance of Treasury bills with time to maturity of less than 6 months.

The ICE BofA 1-Year US Treasury Index is a one-security index comprised of the most recently issued 1-year US Treasury note. The index is rebalanced monthly. In order to qualify for inclusion, a 1-year note must be auctioned on or before the third business day before the last business day of the month.

The ICE BofA 3-Year US Treasury Index is a one-security index comprised of the most recently issued 3-year US Treasury note. The index is rebalanced monthly. In order to qualify for inclusion, a 3-year note must be auctioned on or before the third business day before the last business day of the month.

The ICE BofA 5-Year US Treasury Index is a one-security index comprised of the most recently issued 5-year US Treasury note. The index is rebalanced monthly. In order to qualify for inclusion, a 5-year note must be auctioned on or before the third business day before the last business day of the month.

The ICE BofA 1-3 US Year Treasury Index is an unmanaged index that tracks the performance of the direct sovereign debt of the U.S. Government having a maturity of at least one year and less than three years.

The ICE BofA 1-5 US Year Treasury Index is an unmanaged index that tracks the performance of the direct sovereign debt of the U.S. Government having a maturity of at least one year and less than five years.
