As of March 31, 2023

Chart 1: The use of the Fed’s “discount window” liquidity facility spiked

Source: Federal Reserve, March 31, 2023

Chart 2: Core services inflation showed no signs of flagging

Source: Bureau of Labor Statistics, Insight calculations, March 31, 2023

Economic Indicators and Monetary Policy

The market became concerned about the health of the banking sector. Silicon Valley Bank became the largest bank failure since Lehman Brothers in 2008, with Signature Bank failing the same weekend, given depositor concerns. All deposits, including those uninsured by the FDIC, were protected, but other banks, principally First Republic, drew market attention. The Federal Reserve (Fed) introduced a new liquidity facility to address interest rate risks on bank balance sheets, and the use of its existing “discount window” facility spiked to even higher levels than in 2008 (Chart 1). Concerns spilled over to Europe, and regulators engineering a takeover of Credit Suisse by UBS through an all-share sale, while Credit Suisse’s AT1 bond instruments were written off.

The FOMC raised the Fed Funds rate by 0.25%, taking The Fed Funds rate to a 4.75%-5% range. Market probabilities going into the meeting were finely balanced between a hike and a pause. The Fed addressed banking sector concerns stating “The US banking system is sound and resilient” but “tighter credit conditions” may result. The Fed’s “dot plot” remained largely unchanged, projecting a year-end 2023 Fed Funds Rate of 5.125%. Elsewhere, the Fed slightly lowered its growth projections for both 2023 and 2024 (from 0.5% and 1.6% to 0.4% and 1.2% respectively). Chair Powell signalled the central bank would look to its liquidity facilities to address banking sector issues, while maintaining a tight interest policy to target inflation.

CPI and Core CPI edged down to 6.0% and 5.5% year-on-year respectively, the lowest since the tail-end of 2021, albeit still representing a relatively slow rate of descent (Chart 2). The Fed’s closely-watched “supercore” inflation measure (core services excluding housing) continued to run strong at 6.1% year-on-year. Meanwhile, shelter inflation was once again the largest contributor and showed no signs of slowing yet— it was up 8.1% year-on-year.

Nonfarm payrolls rose by 311,000, stronger than consensus expectations at 225,000. Tech layoffs started to show up in the data as Information sector was the largest detractor with employment falling by 25,000. Wage growth edged up slightly from 4.4% to 4.6%. The unemployment rate rose to 3.6% from 3.4%, partly due to an uptick in the participation rate.

Interest Rate Summary

Yields fell across the curve due to the banking sector developments. At the end of March, the 3-month US Treasury bill yielded 4.80%, the 6-month US Treasury bill yielded 4.91%, the 2-year US Treasury note yielded 4.03%, the 5-year US Treasury note yielded 3.58% and the 10-year US Treasury note yielded 3.47%.

ACTIVITY AND PERFORMANCE SUMMARY

For the period March 1, 2023 - March 31, 2023

<u>Amortized Cost Basis Activity Summary</u>	
Opening balance	91,670,890.67

ADDITIONAL INFORMATION

As of March 31, 2023

Past performance is not a guide to future performance. The value of investments and any income from them will fluctuate and is not guaranteed (this may partly be due to exchange rate changes) and investors may not get back the amount invested. Transactions in foreign securities may be executed and settled in local markets. Performance comparisons will be affected by changes in interest rates. Investment returns fluctuate due to changes in market conditions. Investment involves risk, including the possible loss of principal. No assurance can be given that the performance objectives of a given strategy will be achieved. The information contained herein is for your reference only and is being provided in response to your specific request and has been obtained from sources believed to be reliable; however, no representation is made regarding its accuracy or completeness. This document must not be used for the purpose of an offer or solicitation in any jurisdiction or in any circumstances in which such offer or solicitation is unlawful or otherwise not permitted. This document should not be duplicated, amended, or forwarded to a third party without consent from Insight. This is a marketing document intended for professional clients only and should not be made available to or relied upon by retail clients.

Investment advisory services in North America are provided through two different SEC-registered investment advisers using the brand Insight Investment: Insight North America LLC (INA) and Insight Investment International Limited (IIL). The North American investment advisers are associated with a broader group of global investment managers that also (individually and collectively) use the corporate brand Insight Investment and may be referred to as Insight, Insight Group or Insight Investment.

INA is an investment adviser registered with the Securities and Exchange Commission (SEC), under the Investment Advisers Act of 1940, as amended. Registration with the SEC does not imply a certain level of skill or training. You may request, without charge, additional information about Insight. Moreover, specific information relating to Insights strategies, including investment advisory fees, may be obtained from INA's Form ADV Part 2A, which is available without charge upon request.

Where indicated, performance numbers used in the analysis are gross returns. The performance reflects the reinvestment of all dividends and income. INA charges management fees on all portfolios managed and these fees will reduce the returns on the portfolios. For example, assume that \$30 million is invested in an account with INA, and this account achieves a 5.0% annual return compounded monthly, gross of fees, for a period of five years. At the end of five years that account would have grown to \$38,500,760 before the deduction of management fees. Assuming management fees of 0.25% per year are deducted monthly from the account, the value at the end of the five year period would be \$38,022,447. Actual fees for new accounts are dependent on size and subject to negotiation. INA's investment advisory fees are discussed in Part 2A of its Form ADV.

Unless otherwise stated, the source of information is Insight. Any forecasts or opinions are Insight's own at the date of this document (or as otherwise specified) and may change. Material in this publication is for general information only and is not advice, investment advice, or the recommendation of any purchase or sale of any security. Insight makes no implied or expressed recommendations concerning the manner in which an account should or would be handled, as appropriate investment strategies depend upon specific investment guidelines and objectives and should not be construed to be an assurance that any particular security in a strategy will remain in any fund, account, or strategy, or that a previously held security will not be repurchased. It should not be assumed that any of the security transactions or holdings referenced herein have been or will prove to be profitable or that future investment decisions will be profitable or will equal or exceed the past investment performance of the securities listed.

Please compare the information provided in this statement to the information provided in the statement received from your Custodian.

For trading activity the Clearing broker will be reflected. In certain cases the Clearing broker will differ from the Executing broker.

In calculating ratings distributions and weighted average portfolio quality, Insight assigns U.S Treasury and U.S agency securities a quality rating based on the methodology used within the respective benchmark index. When Moody's, S&P and Fitch rate a security, Bank of America and Merrill Lynch indexes assign a simple weighted average statistic while Barclays indexes assign the median statistic. Insight assigns all other securities the lower of Moody's and S&P ratings.

Information about the indices shown here is provided to allow for comparison of the performance of the strategy to that of certain well-known and widely recognized indices. There is no representation that such index is an appropriate benchmark for such comparison. You cannot invest directly in an index and the indices represented do not take into account trading commissions and/or other brokerage or custodial costs. The volatility of the indices may be materially different from that of the strategy. In addition, the strategy's holdings may differ substantially from the securities that comprise the indices shown.

The ICE BofA 3 Month US T-Bill index is an unmanaged market index of U.S. Treasury securities maturing in 90 days that assumes reinvestment of all income.

The ICE BofA 6 Month US T-Bill index measures the performance of Treasury bills with time to maturity of less than 6 months.

The ICE BofA 1-Year US Treasury Index is a one-security index comprised of the most recently issued 1-year US Treasury note. The index is rebalanced monthly. In order to qualify for inclusion, a 1-year note must be auctioned on or before the third business day before the last business day of the month.

The ICE BofA 3-Year US Treasury Index is a one-security index comprised of the most recently issued 3-year US Treasury note. The index is rebalanced monthly. In order to qualify for inclusion, a 3-year note must be auctioned on or before the third business day before the last business day of the month.

The ICE BofA 5-Year US Treasury Index is a one-security index comprised of the most recently issued 5-year US Treasury note. The index is rebalanced monthly. In order to qualify for inclusion, a 5-year note must be auctioned on or before the third business day before the last business day of the month.

The ICE BofA 1-3 US Year Treasury Index is an unmanaged index that tracks the performance of the direct sovereign debt of the U.S. Government having a maturity of at least one year and less than three years.

The ICE BofA 1-5 US Year Treasury Index is an unmanaged index that tracks the performance of the direct sovereign debt of the U.S. Government having a maturity of at least one year and less than five years.

ADDITIONAL INFORMATION

As of March 31, 2023

Insight does not provide tax or legal advice to its clients and all investors are strongly urged to consult their tax and legal advisors regarding any potential strategy or investment.

Insight is a group of wholly owned subsidiaries of The Bank of New York Mellon Corporation. BNY Mellon is the corporate brand of The Bank of New York Mellon Corporation and may also be used as a generic term to reference the Corporation as a whole or its various subsidiaries generally. Products and services may be provided under various brand names and in various countries by subsidiaries, affiliates and joint ventures of The Bank of New York Mellon Corporation where authorized and regulated as required within each jurisdiction. Unless you are notified to the contrary, the products and services mentioned are not insured by the FDIC (or by any governmental entity) and are not guaranteed by or obligations of The Bank of New York Mellon Corporation or any of its affiliates. The Bank of New York Corporation assumes no responsibility for the accuracy or completeness of the above data and disclaims all expressed or implied warranties in connection therewith.
