DEPARTMENTAL REPORTS

- **City Manager's Office**
 - Coordinated first "Community Crew" monthly service project painting the barn and train depot area at Belleview Farm & Train. Nine volunteers contributed 27 hours collectively toward the project.
 - Met with Arapahoe County Sheriff's Department Office of Emergency Management to discuss the Englewood/County emergency management contract in light of the resignation of the third emergency management coordinator.
 - Preparation continued for the annual City Council Retreat
 - Finalized Elevate Englewood participant list and course curriculum. 27 applicants applied for 20 spots, but all residents of Englewood were admitted to the program.
- **Communications**
 - Englewood in the News:
 - [Englewood school board selects Anna Whistler as new member](#)
 - [Englewood's Movement 5280 works to prevent unhoused deaths in the winter](#)
 - [Double murder suspect, 81, pleads not guilty to all charges after wife, daughter found dead in Englewood](#)

- **Community Development**
 - Community Development Newsletter – The [January](#) edition of the department newsletter.
 - Short Term Rental (STR) Report - [STR Report](#) as of January 25th.
- **Parks, Recreation, Library and Golf**
 - Pottery evening classes are now available at Malley.

- Formal swimming lessons can help reduce drownings by more than 80%. Group and private lessons are available at the Recreation Center for both children and adults.

- Renovation is under way at the Recreation Center. Phase one is replacing the front counter and remodeling the offices behind the counter. Phase two will be remodeling the offices in the old admin portion and adding an aquatic training area and phase three will be the remodel of the lobby restrooms.

- Athletic field rentals are available to reserve for the spring season: March 1st – May 31st.
- The first solar light base has been poured for Belleview Park. Staff will be installing a few more after the first one is installed to determine the distance between each light.

- Broken Tee Par 3 and Champion course has been able to open due to the recent good weather. However, the course is closed on Friday and possibly Saturday due to the snowfall.
- 2024 new green fees, carts, and driving range go into effect January 29th.

- The library children’s team hosted their annual Cowboy Hootenanny in the Community Room. Participants learned to lasso, ride, play and race horses, get their picture, and play cactus ring toss.

- **Police**

- Dashboard data for both Co-Responders and the MRU in 2023 are attached.
- Last week, our Citizen's Police Academy Alumni met for our quarterly meeting and a presentation from the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF). It was great catching up with everyone after the holidays and learning about the different teams the ATF has and their role here in Colorado. We spoke about ghost guns, NIBIN, and the different types of cases that the ATF responds to and investigates. If you are interested in joining the Citizen's Police Academy Alumni, check out our website for more information on the Citizen's Police Academy being offered in August.

- **Public Works**

- Users of the Civic Center garage may notice cones, barricades and caution tape around certain areas of the garage. This is due to concrete flaking off on the underside of the top level. An assessment of the problem areas is underway.

- **South Platte Renew**

- South Platte Renew (SPR) is pleased to announce that the organization has been granted two Tailored Collaborations by the Water Research Foundation (WRF). The WRF's Tailored Collaboration Program strategically aligns utilities with WRF research initiatives tailored to address utility-specific and regional challenges. South Platte Renew is excited to provide a concise overview of the two collaborative projects undertaken with WRF:
 - **Optimizing Renewable Natural Gas (RNG) System with Media Evaluation:** In collaboration with four other utilities across the

nation, SPR will engage in a comprehensive evaluation of its Renewable Natural Gas (RNG) media. The primary objective is to optimize the RNG system for greater efficiency and sustainability. This initiative reflects the organization's commitment to advancing renewable energy solutions and contributing to industry-wide improvements.

- **Per- and Polyfluorinated Substances (PFAS) Finger Printing:** Taking the lead in this project, SPR aims to identify methods for PFAS source identification through PFAS Finger Printing. By leveraging statistical models and machine learning, the organization's efforts will not only support but also optimize monitoring requirements. The ultimate goal is to contribute to a better understanding of PFAS sources, paving the way for effective source apportionment. This initiative underscores South Platte Renew's dedication to addressing environmental concerns and enhancing water quality. These collaborations exemplify SPR's ongoing commitment to innovation, sustainability, and proactive contributions to the water sector. The organization eagerly anticipates the positive impact these projects will have on its operations and the broader industry.

- **Utilities**

- As a part of the Lead Reduction Program, the program manager continuously updates the Service Line Inventory Map as the material of service lines in the water service area is physically verified. This map is publicly available [here](#).

UPCOMING EVENTS & COMMUNITY MEETINGS

- The Arapahoe County Council on Aging Annual (ACCoA) will hold its annual meeting at Malley on January 29th. This meeting will address trends and topics that are affecting older adults.

COMMUNITY KUDOS

- Email to Chief Watson:

Dear Chief Watson,

I wanted to extend my gratitude to one of your patrol officers. His name is Adam and he was on patrol last night, January 18, 2024 at approximately 2130. I'm a nurse at Porter Hospital and upon going to my car after work last night I noticed that my back tire was almost flat. My mind started racing with all of these warnings you see online anymore about what criminals will do to distract people so that can steal your car or purse or even hurt you. Needless to say, I didn't feel safe changing my tire in the cold dark parking garage. I don't live that far from the hospital and figured if I could just make it to the 711 on Broadway and Dartmouth, I could get some air or change the tire there. You know, with more people around and

better light. So, while reluctantly driving 10 mph south on Broadway, all the while worried that I was ruining my car rim, I just happened to see my saving grace, an Englewood Police car sitting at the entrance to the Kaiser parking lot. I pulled in right next to Adam's vehicle and explained my situation and asked if he needed to be anywhere or if he could just be here while I changed my tire. Not only did he stick around but he got out of his car and helped me change my tire. I did not expect that. My mind was at ease just knowing someone was watching my back, let alone helping me. He made the whole situation easier and me feel much less anxious. We quickly got the tire changed and I was on my way home. I know that it may not be a situation where he saved my life or put his own in danger, but my family and I are grateful for him being there. We are grateful for all of you. Please know that you are all appreciated. Please let Adam know how much he is appreciated too. Thank you for all you do.
