## COMMUNITY KUDOS

- Hi, I always read the magazine cover to cover, and I'm delighted to see that you're now doing a mini magazine with updates. I've lived in Englewood my entire adult life (as soon as I left the pink bedroom I shared with my little sister!) My husband and I are raising our two kids here (now 12 and 15 years old). Englewood is changing so fast... Lots of good things... But also, lots of new people coming in who don't know anything about Englewood. I love the magazines for me because I want to know everything happening. But even more so, I'm glad that new people coming to Englewood are learning what we're all about. Also, we love our new neighborhood sign and the naming of the neighborhoods. Probably a different department, but what a great idea! Anyhow, thank you for what you're doing! We're planning on being here forever and I'm so glad that Englewood is doing so much to be a great place to live.

- Toni, I am not sure who it was that the Craig team met with at Malley, but WOW. The team was very impressed and could not say enough good things about that experience. They are very excited about having their upcoming event there and feel very confident that it will be a great success just based on their interaction with Shelly!
