

CITY OF ENGLEWOOD WEEKLY REPORT Week of June 10, 2024

COUNCIL COMMUNICATIONS

- Council Calendar
- Council Request Responses
 - o CRT 0755 (Nunnenkamp) Development Impact Fee Study and Linkage Fee
 - o CRT 0766 (Prange) Property Tax Legislation impact on Englewood
 - o CRT 0775 (Russell) Traffic monitor at Oxford Avenue at Fox Street
 - o CRT 0777 (Ward) City Regulations on Door to Door Sales
- Outstanding Council Requests

DEPARTMENTAL REPORTS

Administration

- Scheduled an Elevate Englewood Alumni Briefing & Input Session virtual
 meeting for week after next to update the group on current projects they
 learned about during Elevate and to plan future ways for the different
 classes to connect. Almost 20 participants have registered so far. Similar
 sessions will be organized for alumni of the Planning School, Police
 Citizens Academy and our Neighborhood Group Leaders.
- Worked with PRLG and Communications to assemble and collect the Parks & Rec bond preference survey for Council
- Participated in another Good Neighbor Agreement mediation session, greeted and spoke at the Volunteer Appreciation Picnic
- Met with Englewood Schools to discuss partnerships related to possible student exchanges in 2025 with Englewood students and students in Englewood's sister city, Belm, Germany.

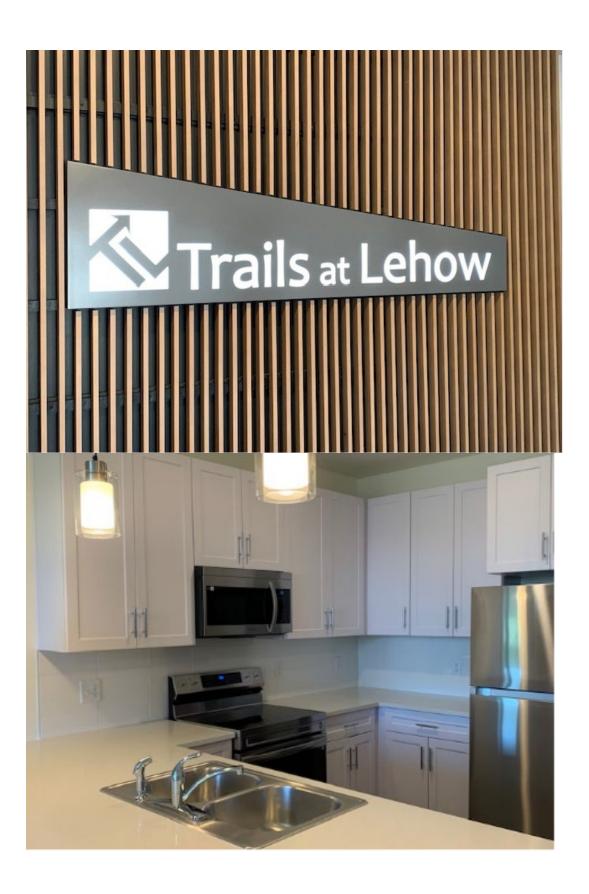

• Communications

• Community Development

- o Newsletter The Community Development Department June newsletter
- STR Report The Short Term Rental (STR) Report for June 13
- Trails at Lehow This 82-unit affordable multifamily housing development at 300 W Lehow is completed, with initial tenants expected to move in the week of June 17th. A certificate of occupancy was issued on June 13th. The building division inspection team (Ryan Harkness, Bill Pataluna and Bob Rosic) individually and together completed over 175 trips to the project (conducting multiple inspections per trip) over the course of the 20-month construction period.

• Finance

 We are pleased to inform you that the city's 2024 annual budget received the Distinguished Budget Presentation Award from the Government Finance Officers Association (GFOA). The 2024 budget document meets program criteria as a policy document, an operations guide, a financial plan, and a communication device.

GOVERNMENT FINANCE OFFICERS ASSOCIATION

Distinguished Budget Presentation Award

PRESENTED TO

City of Englewood Colorado

For the Fiscal Year Beginning

January 01, 2024

Christopher P. Morrill

Executive Director

• Parks, Recreation, Library and Golf

 The library hosted the Authors Festival on Saturday, June 8th. Twenty authors were in attendance with over 100 participants. The morning session was meet and greet with authors and in the afternoon panel discussions were held.

- $_{\odot}$ Volunteer Appreciation night was held at Pirates Cove on Wednesday evening. Just over 100 volunteers attended the event. Food was donated by Texas Roadhouse and Meadow Gold.
- Broken Tee held the second annual Women In Golf Day with 58 participants. The participants could select between a golf clinic with the

pros from Meta Golf or play a quick 6 holes. After the events concluded the women met for a happy hour, dinner and raffle prizes.

- On Wednesday, Celebrate Golf was held at Broken Tee with activities for kids and adults alike. A BBQ lunch was hosted at the River Run pavilion to help raise funds for the Englewood High School Golf team. Over 200 people attended the BBQ and participated in the activities.
- Parks irrigation update: Romans park irrigation has been repaired. The turf will be aerated once consistent moisture has been achieved and will bounce back in a few weeks. Northwest Greenbelt irrigation has replaced the up-pipe and 3" fittings. This was not an easy repair and staff was able to complete the work without contracting the work out. Cushing Park is still down. We continue to wait on the new motor and pump. A contractor will install and program the equipment once parts arrive. Estimate arrival is Monday. Staff will continue to water the contracted flower beds every other day or as needed.
- Swedish Hospital came to Lower Dry Creek Plaza with 30 volunteers. The group walked from the Plaza to Logan, picking up trash and debris.
- Parks is working with a contractor to repaint four pickleball courts and replace the nets at Colorado Finest.
- Englewood Recreation is running a youth Track & Field Program through CARA (Colorado Association of Recreational Athletics). There are 21 participants ages 9-14 who will compete in local track meets throughout the summer.
- This week Recreation Staff expressed our appreciation to the many guests who have been impacted by the renovation project since September 2023, with goodies and reusable shopping bags. The guests were just as excited to see us in the new space as we were to be there.

 The Englewood Malley Cats are ranked #1 in their division for the first half of the season with a record of 13-1.

• Police

 Englewood Police hosted Popsicles with the Police on May 30th and we had a great turn out. We had a great time enjoying the sunshine and showing everyone all our different Police vehicles.

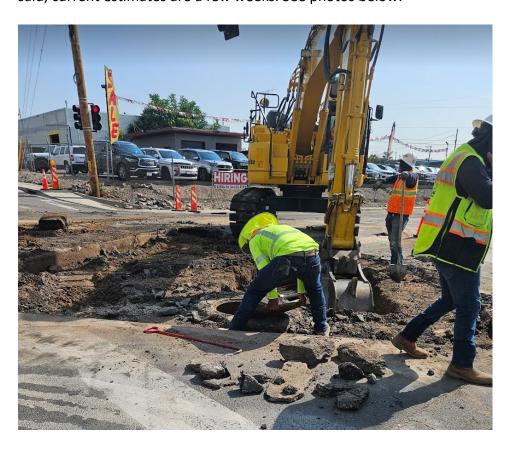

• Public Works

 South Englewood Flood Reduction Update, Site B: A site visit to view the tunnel boring machine (TBM) was held this past Tuesday with staff from public works, communications, as well as MHFD, and council present – see photos below. Tunneling operations have commenced and the contractor is making good forward progress on the ponds.

On Saturday afternoon June 8th, roadway damage was discovered at the intersection of Zuni and Dartmouth. Public Works, Utilities, and City County of Denver have been collaborating on the issue. A manhole and pipe within the City of Englewood city limits has been damaged and repairs / replacement are required. Public Works' on-call contractor arrived on site and began work Thursday June 13th. A timeframe for the completion of the repair is not known until the full extent of the damage is assessed. That said, current estimates are a few weeks. See photos below:

o Installation of a new sewer line along Inca, south of Hampden (285), is still in process. the installation is being done for a new private development and has resulted in the closure of the southbound lanes of Inca until the work is complete. The new sewer line is ~14' and adjacent to gas lines, which has slowed the contractor's progress. It's anticipated that work will be completed in the next 2-3 weeks. See photo below:

• South Platte Renew

South Platte Renew's (SPR) Annual Water Fest will take place on Thursday, June 20th, from 3-7 p.m. at the SPR facility. This free, family-friendly event invites the entire community to celebrate the importance of water. Attendees can enjoy free food and refreshments, interactive booths, engaging games with prizes, guided tours, and a touch-a-truck experience. Community partners, including several Englewood departments, HawkQuest, the Environmental Protection Agency, and others, will also be present. The SPR Water Fest promises to be an exciting and educational event for all ages.

Utilities

 As a part of the Lead Reduction Program, the program manager continuously updates the Service Line Inventory Map as the material of service lines in the water service area is physically verified. This map is publicly available here.

UPCOMING EVENTS & COMMUNITY MEETINGS

- Saturday, June 15th starting at 6pm: KidStage & Movie in the Park, Just Dance & Trolls at Centennial Park. Movie starts at dusk.
- Wednesday, June 19th, 6-8pm Adult Night at Pirates Cove, <u>tickets</u> are \$10 per person.
- Thursday, June 20th, Registration starts at 9am with the lesson kicking off at 9:30am— Worlds Largest Swim Lesson at Pirates Cove. Event starts.
- Saturday, June 22nd, Englewood Day of Service register to volunteer here.
- Thursday, June 27th, 4-8pm Neighborhood Nights at Cushing Park.
- Save the date: July 4th, 5-10pm at Belleview and Cornerstone Park.

Comments:

I don't understand why construction costs are split from building expansion. Construction costs should be broken down by project or not split out at all. I've gotten the most overall negative feedback about the surf simulator. People are skeptical about its usefulness and reliability. It strikes them as a "fad."

My answer on the Surf Simulator is actually "unsure" but the survey doesn't allow for it. I personally don't mind the idea of the Surf Simulator and while some public comment refers to it as a trend, we could say the same about Picklebalt. That being said, there has been pointed public comment about not wanting the Surf Simulator and it is a higher dollar fixen. I could see the removal of this being a way to get to a more palatable overall bond dollar amount ask and demonstrate to the public we have been listening.

Prange Anderson

Wright Sierra

Ward

I feel this is too in the weeds for us. I am comfortable with a \$40 or \$45M bond. If getting into the weeds, only thing I would say is the success of the river run and their surf simulator is reason for me to vote for this

I voted no on the surf simulator and associated addition costs. If they encompassed construction needs beyond the surf simulator, I'm happy to take another look.

Comments:

I would not request any improvements to Pirate's Cove in the current cycle except to the extent that a rebuild is required on current infrastructure that is failing. I would consider an expansion (or sale)

Ward of Pirate's Cove in the future.

If we are looking to reduce cost, considering and either/or on the Prange matt racer slides or tube slides could be an option to consider Anderson

Wright Pick between Matt recer and tube slide. Maybe not both.

I am in support of providing additional amenities to keep Pirates

Sierra Cove top of mind for the public

Miller Field could be so much better than it is. These improvements would serve the community that surrounds the current park. I might pare down some of this due to cost, but I think the improvements are overall worltwhile.

The water feature of splash pad is costly and could be costly to maintain long term. I believe families would greatly enjoy it; however, it is close to the other splash pad in City Center. Could be a way to bring overall bond cost down.

Prange

Prioritize safety improvements at Belleview Park. The farm and train may be a difficult sell to the community, but they are popular regional amenities. Also, these are District 4 improvements, so I rank them high. I do not see value in \$700k for ballifield lights when the current lighting is functional. Prange Anderson Wright

Wright
Only question here is does the floodplain change the composite of the train depot Nunnenkamp

Additional Comments:

Cushing causes me heartburn because we already did massive improvements there. Knowing the Emerson Park neighborhood, the people who live there are likely to be VERY resistant to change, especially if that change brings new people to use that park. The received very negative feedback on any proposed landscaping changes at Rotolo. Aside from the restroom, I'd leave that alone. I do not think the Southwest Greenbett needs ANY of the suggested improvements. I live one block away from It and walk it regularly. The only changes I'd make there are improvements to estimate part of the received in the restroom. There are several spots that ic one or and puddle in the winter, for drangerous conditions. I'm not sold on \$2.4 million for improvements to Centennial Park. The Parks Department must emphasize the need for irrigation improvements. This - like our water and sewer infrastructure citywide-has been neglected for years, and the People with not understand the need to spend \$3 million on It unless the messaging is clear and they have a firm understanding of why the current system in synotherials. I'miglement rathe plants in parts of the neighborhood parts' is not a clear enough survey question for me to answer, lordered significant negative feedback on the current native plants plan, but I think there is some room for native planting in some of our parks. I think the current approach is too extreme and a gentler, slower approach is warranted.

I want to understand what landscaping improvements mean outside of native plant shifts. I tove the idea of native plants but would want to understand, at each park, what percentage of usable play space would be replaced with native plants. I believe this is a sustainable direction to move but we need to give the public well-refined into mountain concerns arising concerning rative plants replacing with office with with the but as issue on which the build measure fails because we didn't provide adequate information in this area.

I need more information. Several residents have said they are concerned about native plants and grasses.
I've been on record of saying minimal changes should occur at pocket parks. Just add a few amenities would be okay with me

on #19, I want more natives, but want to better understand the panning so we don't lose grass areas that families currently use for playing. We need to find the right balance.

Prange Anderson Wright
